# ***ED TECH: BCNET or BCcampus***

Dean Crawford, BCNET Manager Shared Systems and Technology

Brian Case, BCcampus, Manager, IT Services

Clint Lalonde, BCcampus, Manager, Ed Tech

# PURPOSE

Who we are.

What do we mean by Ed Tech?

What are some of the scenarios?

How to decide which organization?

What you need to know.

# Who we are

- Publicly funded organization that supports the work of BC's post-secondary institutions in the areas of teaching, learning and educational technology
  - Collaborative leadership with projects, programs, and innovative solutions
  - Assisting institutions in evaluating and developing good practice in the use of technology for learning
- 
- Federally incorporated not-for-profit
  - Provider of shared services including networks, procurements, licensing and IT services
  - Emphasis on IT, Networking, Research, Enterprise Services, and Communications Departments

# Educational Technology

“Technology is just a tool. In terms of getting the kids working together and motivating them, the teacher is most important.” - Bill Gates

R.C. Richey (AECT) defined educational technology as "the study and ethical practice of facilitating learning and improving performance by creating, using and managing appropriate technological processes and resources."

# Service Selection

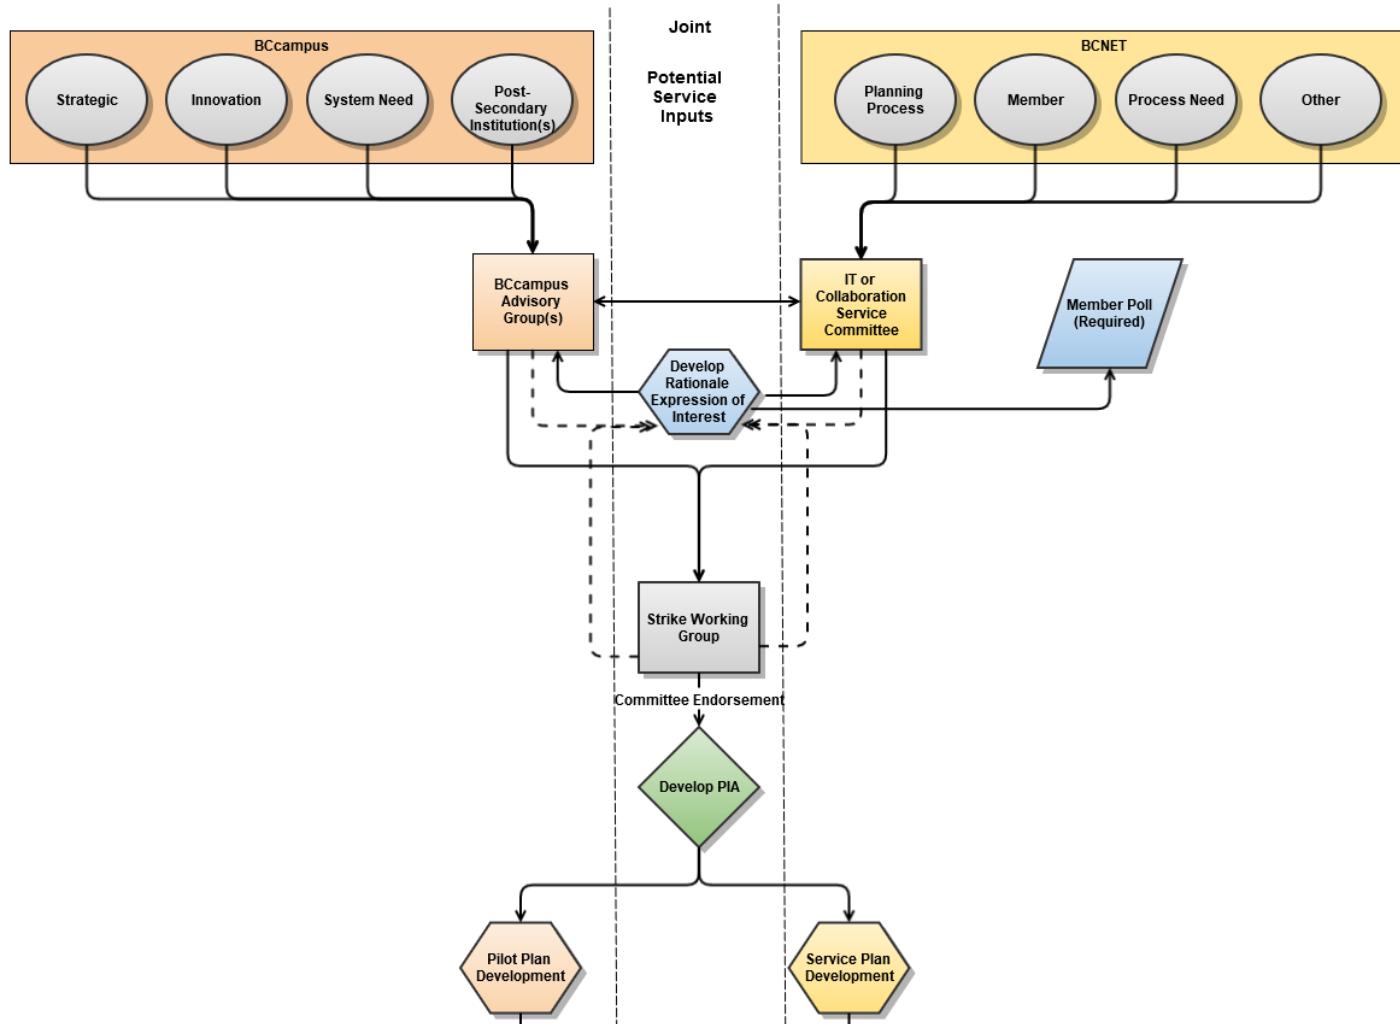

- Is the shared service/procurement scalable to the entire post-secondary system?
- Is the technology one which will offer improvements to the teaching environment?
- Will the service/procurement reduce costs for the members?
- Can additional value be created by the service/procurement using a shared services approach?
- Will BCNET/BCcampus involvement in the shared service add greater efficiency and reduce overhead costs to their members?
- Will the service/procurement have a significant benefit to multiple post-secondary institutions?

# Use Cases

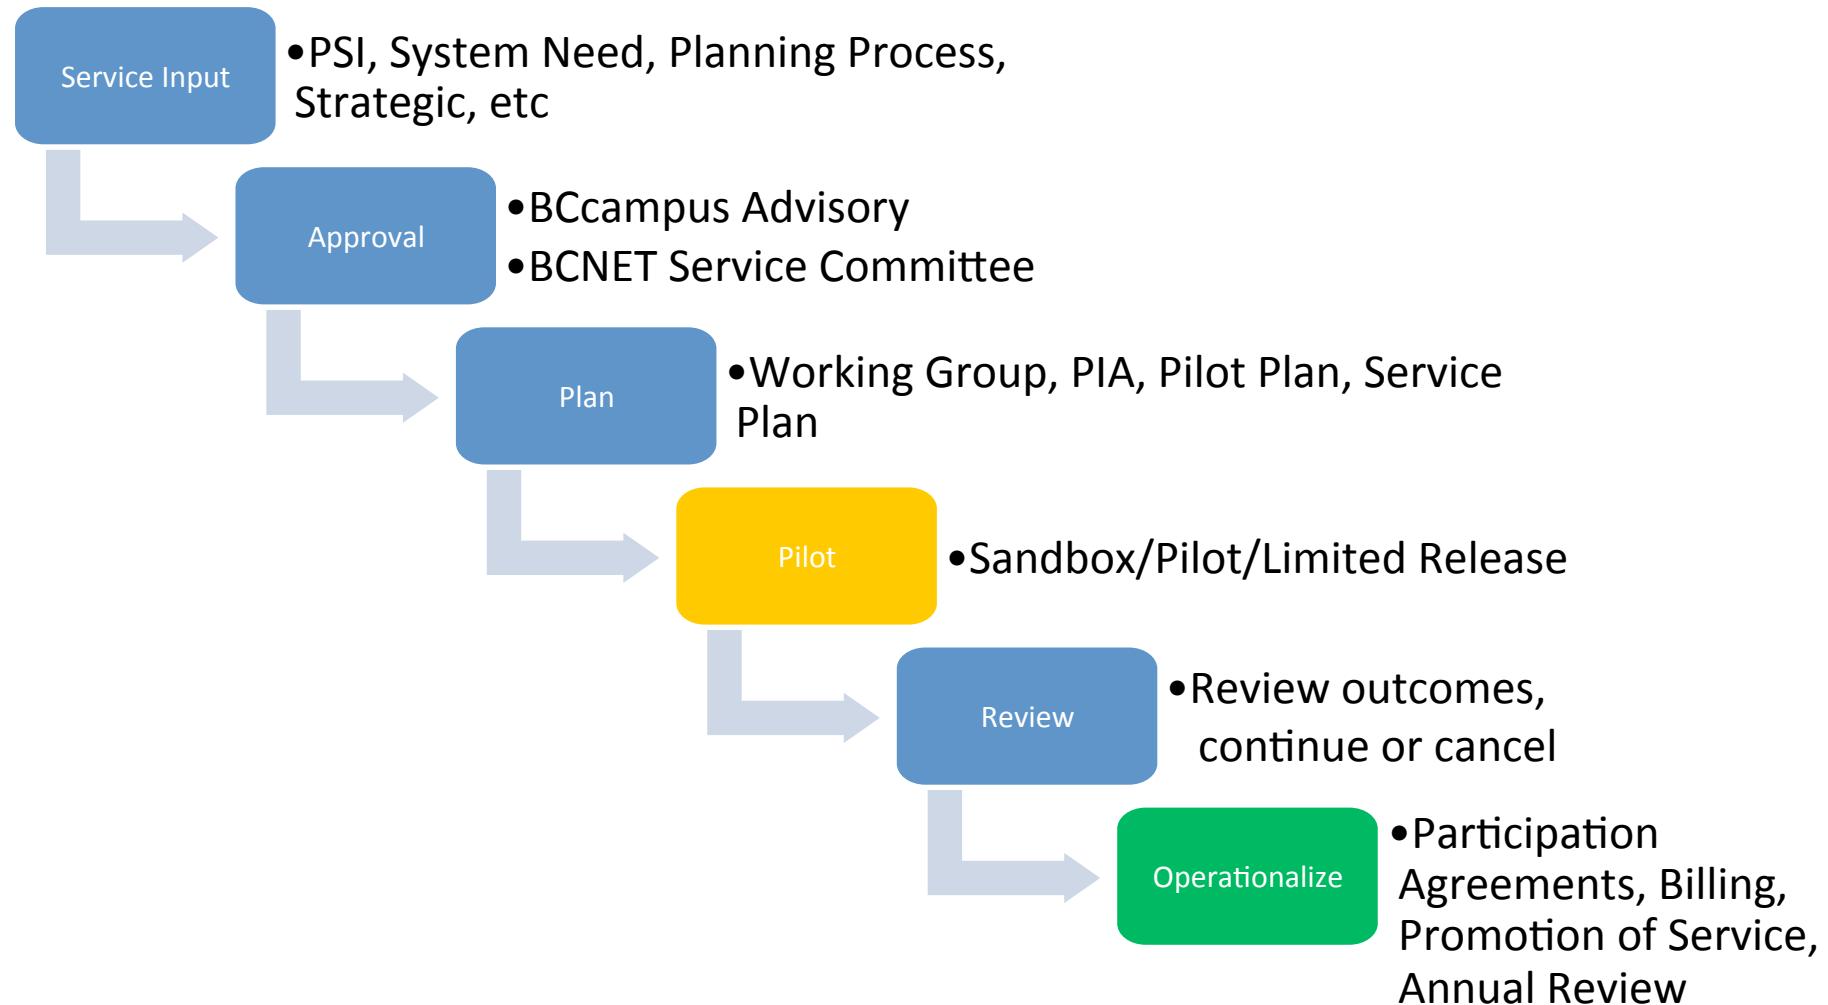

## BCNET - BCcampus Service Development Process

Conference 2016  
Conference 2019

BCNET

# Overview of Process

# What you need to know

- BCNET/BCcampus communication
- Minimum PSI's required
- EduCloud
- Participation Agreements
- Common Language
- Transition Documents

# Questions

- What are your pain points when trying to navigate between both organizations?
- What would make it easier?
- Other Questions?

# Thanks You
